"I had a mental image of the object, and I described EXACTLY how I wanted the items to DIN CHEL Craft and Souvenirs. When the items were completed, I had to say, the mental picture of the items that I asked for were transformed into a reality. I was extremely satisfied with the products and the EXTRA CREATIVITY that was added to the items".

Our Story

Din Chel Craft and Souvenirs specializes in the manufacture, wholesale and retail distribution of custom designed and specialty handicrafts and souvenirs. The product line includes jewelry, clocks, boxes, bowls, abstract and accent pieces for every room in the home, restaurant, resort or office. The family owned business was founded by Managing Director and master craftsman Steven Dailey. The Caribbean based business is registered in the Commonwealth of Dominica, but opens its doors to the people of the world through the internet and guided shop tours for visitors to Dominica. Walk-in shoppers and guests are also welcome!

Steven is a wood-work professional and instructor with over twenty-five years of experience in wood-work. Artistic talents and technical know-how inspired Steven to create unique pieces, both abstract and functional. The demand for and high praises of his work resulted in the birth of a business from a hobby.

Make those memories and those moments immortal at Din Chel!

The name of the business was coined by joining components of the names of his two young daughters who serve as inspiration in the creative department in addition to demonstrating strong pride and interest in the business overall. His wife Gweneth manages the accounting function of the business.

Located at LeBlanc Lane, Goodwill, it is less than seven minutes walk from the centre of Roseau; Dominica's capital, the shop is very easy to reach by foot or other means of transportation.
